READY FOR AN OUTBREAK.

A Timely Discovery of the Plot Prevents Bloodshed and Escapes at the Penitentiary.

Sunday morning Warden Norman, of the penitentiary in this city, acting upon suspicious circumstances that indicated a plot for an outbreak of the prisoners, confronted Wilk Hockenheimer, a long termer from Powell county, and accused him of instigating a revolt.

The prisoner denied any knowledge of such a plot, but on being searched a murderous looking knife and a letter were found on his person, the letter, which was addressed to a near relative, stating that an attempt would be made by him and others, that (Sunday) afternoon, at three o'clock, to regain their liberty, and that it was the intention of those sworn to the attempt to capture the gate and kill all the guards. The writer then added that if he should be killed, as it was probable he would be, he desired to be buried beside his father at their old home in Powell county.

Hockenheimer refused to reveal the names of the others in the plot, but a search was made and about fifteen, from whom knives and other instruments of death were taken, were known to be among Hockenheimer's confederates. The most noted of the lot were Alonzo Brookshire, who killed Jailer Tipton, of Montgomery county, and Constable Howard, of Menefee county; Roddy Meade, a life man from Knox county; Will Harris, colored, an eleven year man from Lee county, and from whom a rope fifteen feet in length was taken; Horace Little, a life prisoner from Pike county; Jack Johns, colored, a life man from Magoffin county, and W. R. Tallent, a life man from Lee county, who with Hockenheimer had been selected to kill the guards at the gate.

There were four plans described to effect their escape, the first which was to be put into execution that afternoon was for a part of the conspirators to linger around the gate and along the wall near by, and as the ladies who attend the Sunday-school were passing out of the gate, to rush upon the gate-keepers overpowered them and force open the ponderous gates and kill everyone that attempted to bar their steps to freedom.

The other plans were to cut out of the cell-house at night, to overpower the guards on the wall at the South end of the yard and to secure possession of the water hose which can turn on a powerful stream, knock the guard houses off the wall and thus scale the walls without danger of molestation, but in all probability these were merely after thoughts and the concentration of all the conspirators hopes and efforts was to be thrown into the diabolical plot which the Warden's alertness nipped in the bud. The guilty men were punished, and will be kept in close confinement, and after their release from the dungeon will be put under strict surveillance.

The penitentiary at best is not a safe place for ladies to enter, but at such a period of idleness among the prisoners when it is almost impossible to prevent attempts at outbreak, it is believed to be an exercise of great impudence for any lady to go to the penitentiary, whether sight-seeing or to attend the Sunday-school.

High School Commencement.

The commencement exercises of the High School will take place at the opera house on Thursday evening, June 16th. There are thirteen graduates, twelve young ladies and one young gentleman, whose names are inscribed on the beautiful invitations to be sent out for the occasion, as follows:

Carrie May Bohannon Pauline Watson Brown
Margaret Jane Culter Annie Mills Coleman
Mame Waggoner Crutcher Margaret Jane Daniel
Ben M. M. Keenon
Julia Black McChure Cecile Vaughn McEwan
Eliza Laura Spalding Lucinda Theobald
Annette Hardin Walcott Almira Ward.

Hon. W. J. Hendrick, Attorney General, will deliver the address, and the programme will be varied with music, recitations and the reading of original papers.

As boys too often leave school before they reach the graduating class, and a number of years have elapsed since a boy attained this honor at this school, the graduation of Mr. Ben Milam Keenon is a noteworthy event at the closing exercises this year.

There were only seven graduates in the class of 1892 and the large increase this year is both encouraging to Prof. McHenry Rhoads, the efficient Superintendent, and his superior corps of teachers, as well as gratifying to the patrons of the public school and the citizens generally, who have reason to be proud of this institution of learning.

Will Jump From the St. Clair Street Bridge.

Meredith Stanley, the noted bridge jumper, will be here on Sunday, June 11th, and will leap from the St. Clair street bridge into the Kentucky river. An excursion train will be run from Cincinnati over the K. C. and L. & N. Railroad to this city on that day and a large crowd will come over from that city to witness the performance. Col. M. F. Flood and Mr. Edmond Burke, of Cincinnati, were here Friday of last week making arrangements for the excursion party.

Licensed Attorney.

Mr. M. R. Todd, of this city, was examined on Tuesday by Judges Fryor and Hazelrigg of the Court of Appeals, and granted license to practice law in all the courts of this Commonwealth.

Mr. Todd will spend the summer here and attend to such practice as may come his way, officing with County Attorney L. F. Johnson, but will return to the Law School of the University of Michigan, at Ann Arbor, in the fall, from which institution he will graduate in June, 1894.

A YOUNG TORNADO.

Trees, Fences and Roofs are Damaged, But no Lives or Large Amounts of Property are Destroyed.

The wind storm of Tuesday morning that visited various parts of the State blew down a large number of trees and fences and committed other smaller ravages in and around this city, but fortunately, as far as known, passed away without accomplishing any loss of life or considerable damage to property.

The large elm at the corner of Second and Steele streets, in Gen. Lindsey's yard was blown down from the roots, which in upturning tore that section of the fence from its fastenings. The bill posting fence across the street from Gen. Lindsey's was thrown to the ground and several fine trees in Col. Tom Rodman's yard, in Sam D. Johnson's, in Mrs. Florence Garrett's, at the Dudley Institute, in Judge Joseph H. Lewis', in Mr. Ed. Lynch's, in the State House yard and in the vicinity of the Feeble-minded Institute, were shorn of branches and limbs that must have required the force of a young tornado to twist from their parent trunks. A large tree was also uprooted at Judge Drane's, the roof of the warf shed was lifted off and deposited in Mrs. Mary S. Hendrick's yard, and the smoke stack at Black & Hughes' coal elevator was laid prostrate, two of the stone caps on the pinnacles surrounding the Catholic Church tower and weighing perhaps 200 pounds, were loosened from their setting and driven with a crash through the roof of the church.

He Will Play at the Wedding.

Master George Smith, the boy violinist of Louisville, Ky., will be here June 1st to play for the Williams-Morris wedding, at the Presbyterian Church. He will play a composition of his own entitled, "I love thee now forever," and he will play it entirely on one string. Master George has already booked fifteen towns of this State at 50 dollars per night. He leaves in September to fill these engagements.

There's light ahead for the women who suffer, if they'll only turn towards it. There's a guaranteed remedy for all the delicate derangements, chronic weaknesses and painful disorders that make women miserable. It's Dr. Pierce's Favorite Prescription—and it makes women healthy and strong.

It's a legitimate medicine that's purely vegetable and perfectly harmless—a powerful general, as well as uterine, tonic and nerve, renewing and invigorating the entire system. It regulates and promotes all the proper functions of womanhood, improves digestion, enriches the blood, dispels aches and pains, brings refreshing sleep, and restores health and strength.

For periodical pains, weak back, bearing-down sensations, nervous prostration, all "female complaints" and irregularities, "Favorite Prescription" is a positive remedy—the only one that's so sure and certain that it can be guaranteed. If it doesn't benefit or cure, you have your money back.

TOBACCO CROP.

Valuable Statistics Compiled from Returns to the Auditor of Public Accounts.

All but eighteen counties have made their returns to the Auditor of Public Accounts of the crop statistics taken by the assessor's last fall, and the compilation of the tobacco crop shows that the 101 counties have made their report raised 157,609,939 pounds, or an increase of 8,565,851 pounds raised by the same counties in the previous year.

If to the aggregate of the 101 counties there be added the aggregate of the previous year's production of the eighteen counties which have not yet reported, the total crop raised for 1892, not considering any chance of an increase in the eighteen counties, will be 191,624,283 pounds, as against 183,058,432 for the year 1891.

The following is the table by counties, showing the crop of 1891 and that of 1892, as far as the latter has been received by the Auditor:

The structure is 50 feet by 24 feet and is two stories high, having a hall above where the general proprietor says the young folks can amuse themselves. The finish and painting are nice and attractive. Messrs. Hearn & Cronwell were the contractors and the job does credit to their skill as workmen.

THE END OF LIFE.

George T. Stagg, the Well-Known Distiller of this City, Died at Baltimore.

The wires on Wednesday conveyed the sad intelligence of the death of Capt. George T. Stagg, formerly a resident of this city. Mr. Stagg was the President of the George T. Stagg Company, which owns the O. F. C. and Carlisle distilleries, and retired from the company in the fall of 1891 to travel for his health.

He had been suffering with lung trouble and went to California for awhile and thence to Florida, and while en route to Kentucky he stopped at Baltimore, where his death occurred. His wife and eldest son, Stanley, were at his bedside and accompanied the remains to Richmond, Ky., where the interment took place yesterday in the presence of a large assemblage of friends, a number of whom were from this city.

The deceased was born near Richmond about fifty-eight years ago, and after serving in the Federal Army and attaining the rank of Captain, he settled at the close of the war in St. Louis and became prosperous in the commission business in the firm Gregory, Stagg & Co. In 1884 he came to this city and was President of the E. H. Taylor, Jr. Distillery Company, upon the dissolution of which in January, 1887, and retirement of Col. E. H. Taylor, Jr., he organized the George T. Stagg Co., of which he became the President.

Mr. Stagg was twice married, and by his first wife leaves a married daughter, who resides in Austin, Texas, and three sons, Stanley, Tom and Frank. He had no children by his surviving wife.

His son Tom is now in Alaska and will not learn of his father's death for several weeks. Capt. Stagg was a fine business man and well and favorably known in the commercial world. To those intimately acquainted with him he was a genial and companionable gentleman, easy of access and an entertaining conversationalist, but as he was usually absorbed in his business cares, those who did not know him well regarded him as haughty and unapproachable.

To his widow, who was a devoted wife to him, and his children, he left a handsome estate.

Are You Going to the Ex?

If you are contemplating a trip to Chicago during the great Columbian Exposition and want a real first-class place to stop, where everything is done up in regular old Kentucky style, write to Mrs. S. F. Richardson, 162 Dearborn Avenue, Chicago, to save you quarters in her house. Mrs. Richardson is a former Frankfort lady, widow of the late Owen T. Richardson, and one of the nicest of house-keepers. Her terms are reasonable and she should be liberally patronized by people from her old home.

CIVIL SERVICE—In the United States court-room, on Saturday, Miss Emma Morris and Mr. Harry Rogers sat as examiners for local post-office appointments under the civil service requirements, and Wm. J. Wilson, white, George Saffell and George Halleck, colored, wrote their answers to the questions propounded to the grade of letter carriers, and James B. Kelley, white, for the position of clerk. These answers were sealed and returned to Washington City, from which place, in due time, the result will be declared.

WORKHOUSE KEEPER—There was a called session of the city council Friday night, of last week, at which the resignation of W. P. Willis, as keeper of the workhouse, was accepted and Ben Morrison, the former keeper, was elected to fill the vacancy.

TWIN TURKEYS—Mr. Allen Cromwell, who lives near Jetts, tells the story of a singular occurrence that happened on his place this week. He said that he had put ordinary size eggs under his turkey hen and found among the number, one which contained two perfectly developed turkeys that had died just before the egg had pipped. Twin turkeys are a rarity, and more remarkable from the fact that they do not hatch from a double egg.

CONFEDERATE DECORATION—The graves of the Confederate dead in the cemetery of this city will be decorated this afternoon at 4 o'clock. There will be a large crowd present to participate in the ceremony, which will consist of a prayer and the simple and touching act of strewing the flowers on the graves by the hands of the daughters of Confederate soldiers.

WHEELMEN'S TEST—The cyclists of this city are taking advantage of their periods of leisure to spin over the splendid turnpikes of this part of the State. Last Sunday Messrs. W. A. Lewis, Ben Marshall, Duane Sinclair and H. L. Burch rode to Lexington by the way of Versailles, thence to Winchester, Paris and Georgetown, where all except Mr. Lewis boarded the train for home. The following is the record of the distance and time: Lewis—112 miles.....16 1/2 hours; Marshall—80 ".....8 " ; Sinclair—63 ".....9 " ; Burch—80 ".....11 "

TO CALIFORNIA—Mr. W. Leslie Collins made a sale this week, through Robert Stroder, of four thoroughbred mares to Gov. Stanford, of California, who intends to breed the mares to the great stallion Clay.

FELL FROM THE ROOF—Wednesday afternoon John Wright, while at work on the roof of the Mason-Work Co. warehouse, fell to the ground and was painfully but not seriously injured.

EXPLOSION OF A LAMP—Wednesday evening about six o'clock, one of the large lamps in the drug store of Chapman & Williams exploded, but prompt action by several gentlemen present extinguished the blazing oil before it had time to do much damage.

A FATAL WOUND—Bush Hart, of Paris, who was a gauger under President Cleveland's former administration, and was frequently assigned to duty at the distilleries in this city, where he is well known, attempted Tuesday to chastise a butcher named McCauless in that city, in return for a whipping which McCauless had

given Hart's son, and on Chief of Police Mernaugh refusing to allow Hart to enter the butcher's premises, pistols were drawn and fired with the result of two balls in Hart's abdomen, which it was supposed would prove fatal to the wounded man.

BASE BALL.

First Game Tuesday—Frankfort v. Mutuals.

This city will have another crack base ball team which will open the season next Tuesday by playing the Mutuals, from Louisville. Doctors W. E. Baxter and W. H. Dade will manage the team. Lake Park has been leased for the season, and the lovers of the game will have many opportunities of enjoying the sport. The McFarland Brothers, who played here last season in the game against the Lexingtons, will do the battery work for the Frankforts, and when Wicks Lindsey and Frank Barrett return from College next month it will take a very fast club to get away with our boys.

Arrangements have been made with Messrs. Shaw & Sheets to have their boat make two trips each way from the city wharf to Lake Park on Tuesday evening to convey all those who wish to witness the game to the grounds, and the contest promises to be an interesting one, as the Mutuals are one of the strongest non-professional teams in Louisville, being composed of the following players: Shelby, pitcher; Zahner, catcher; Neal, 1st base; Ruder, 2d base; Fuller, 3d base; Collins, short stop; Corrigan, left field; Vetter, center field; Fountain, right field.

The Frankforts will oppose them with the following named nine: McFarland, J., will catch; McFarland, A., pitcher; Lindsey, H., 1st base; Lindsey, N., 2d base; Hunt, G., 3d base; Wintermuth, S., short stop; Hale, L., center field; Vanderveer, R., left field, and McCall, W., right field.

Don't forget to go down to the park Tuesday and encourage the boys by your presence.

Beware of Ointments for Catarrh That Contains Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from a reputable physician, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, and acts directly upon the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Sold by Druggists, price 75c per bottle.

A Horrible Railroad Accident.

FRANKFORT, MAY 27, 1893.

UPPER KENTUCKY TRADE.

A New Boat Owned by Frankfort to Ply Between this City and Shaker Ferry.

At last a boat has been secured for the upper Kentucky river trade, which will be run directly in the interest of Frankfort.

Messrs. Shaw & Sheets are the owners of the boat, a sternwheeler named W. L. Norton, which formerly belonged to the Mason & Ford Company for their use at the Eddyville prison.

Mr. George Shaw, the well-known merchant of this city, will have command and give personal attention to everything relating to the business that will insure the success of the enterprise. He proposes to make three trips a week to Shaker Ferry and also have a large pleasure barge provided with all necessary equipments for excursion parties.

The boat is now undergoing an overhauling and if finished in time for the opening of the base ball season next Tuesday, will make regular trips that afternoon between the wharf and the grounds at Lake Park. It is designed by the owners, however, to enter the Shaker Ferry trade at the earliest possible date, not later than June 10th, and in order that closer business relations may be established between the merchants of this city and the people along this important territory, should be favored by a liberal patronage.

RESENTED HIS REMARKS.

A Father-in-Law About to Carve up Attorney Hugh Rodman in the Court of Appeals.

A little breeze was raised in the presence of the highest court in the State Tuesday during the argument in the case of F. T. Hayden vs. C. B. Hayden, etc., which was appealed in the Circuit Court of this county. The suit arose over a dispute between father and son as to the possession of a tract of 100 acres of land in the county, and after Gen. D. W. Lindsey had spoken for the appellees, Mr. Hugh Rodman, in the course of his argument for the appellant, said that the only person assisting C. B. Hayden in the suit was his ex-convict son-in-law, Sim McGorris, alias Sim Monday. The whole family were present and heard the remark and C. B. Hayden arose to his feet and exclaimed: "I can't stand that," and appeared to be in the act of going towards Mr. Rodman when Chief Justice Bennett ordered Sergeant-at-Arms W. S. B. Hill to put the offending citizen out of the court room. It is said by those who were in the best position to see, that Hayden had actually drawn a knife and would probably have carved up the court as well as the attorneys, if he had not been summarily ejected in time.

Shiloh's Vitalizer is what you need for Dyspepsia, Torpid Liver, Yellow Skin or Kidney Trouble. It is guaranteed to give you satisfaction. Price 75c. Sold by W. McKee Hardie.

TAX EXEMPTIONS.

An Estimate by Auditor Norman For 1893 in the Entire State.

All the tax returns for 1893 have not yet been made to the Auditor's Office, but assuming that about twenty counties, selected from all parts of the State would make a fair average test for the entire State, the Auditor has computed the total taxable exemptions on personal property this year at \$3,000,000.

Though the old State Revenue Law contained provisions for such exemptions on certain designated kinds of personal property, the new law enlarged the scope of the exemptions by allowing for each family, deductions of \$250 in value on all personal property and also differed from the old act in providing a column in the taxbook in which to make returns of such exemptions. It would not be correct, therefore, to say that the total exemptions returned for 1893 is a sum which under the old law would have been taxed, but it is safe to estimate that the adding to the words "household goods" in the original draft of the clause in the Constitution, the words "other personal property" has had the effect of increasing the exemptions as much as seventy five per cent.

Birds of Passage

Between this and the other side of the broad Atlantic, in the shape of tourist, commercial travelers and mariners, agents "on the road," seamen, captains, ship's surgeons and "all sorts and conditions" of travelers, emigrant and new settlers appreciate and testify to the preventive and remedial properties of Hostetter's Stomach Bitters in sea sickness, jaundice, malaria and rheumatic trouble, and all disorders of the stomach, liver and bowels. Against the prejudicial influences of climate, crabs, oysters or unaccustomed diet and impure water, it is a sovereign safeguard, and has been so regarded by the traveling public for over a third of a century. No form of malarial fever, from the cantina of the Pacific and the broken bone fever of the Mississippi, to its milder types, can resist the curative action of this benignant preserver and restorer of health, a veritable boon to persons in feeble health or liable to incur disease.

Corner Chat.

"I had an occasion recently," said a gentleman this week. "to ask an official who has been in public life for many years, to make an address before an audience, and to my surprise he told me that he could not do it to save his life. I know a number of intelligent men of fine conversational powers who cannot say ten lines of an impromptu or prepared speech and yet if in the midst of a conversation with two or three persons, the number should be increased quietly and without their being aware of it to a fairly good audience, they could graphically and entertainingly talk without interruption for hours. The fault of course is in the training, which I think should begin in the schools at the grade of youngest pupils. Oratory is a noble art and

worth the highest effort to achieve, but whether attained to that degree of excellences or not, there is nothing lost to the pupil in the training if he acquires no more in the practice than the command of his faculties before an audience. We all know that presence of mind on all occasions and under all circumstances is a most desirable thing and pursuit of the art of forgetting self in the idea or purpose before you, which oratory demands, cannot help but promote the power to marshal the intellectual facilities into prompt and most efficient service."

A gentleman remarking upon the hard lot that befall some men, said:

"If every man's internal ear, Were printed on his brow, How many would our pity share, That share our envy now?"

I know a man of wealth and full of honors who walks with a proud and important air, as if nothing in this world were better or more desirable than what he already enjoyed. And yet within the privacy of that man's home there are griefs that bow him to the ground, and which, if known to the public, would raise the pity of everyone where now his seeming success in life has raised the envy. It has often occurred to my mind, in measuring the results of life, that perhaps where one man was the loser in one thing it was made up to him in other particulars, and often maybe in burdens that turn out after awhile to be the very source of joy which the apparently more fortunate man would most covet."

Said a bright, unmarried visiting lady, from whose cheeks the frosts of a number of winters have despoiled the bloom of youth, but in whose kind heart and laughing eyes the sun of an equal number of summers has poured its glowing rays:

"I heard that the matrimonial fever was fairly raging here and I came on a visit hoping I could catch it, or rather that it would catch me. Why I was told that even this week there were three double weddings. Just think of it, and of the number that are announced to take place within the next month, and you can see for yourself that Frankfort will be left without a sufficient proportion of young ladies to give zest to society. Now as it will never do to suffer an interregnum, the old maids are bound to come to the rescue and help to manage the eligible young men until the younger set of girls are fairly on the carpet. You may guess my age, but I know I am not as old as some of the unmarried women here and I am going to write names, place wedding cake under my pillow, open the bible for verses and resort to every charm this summer to capture a man before the sweet girl graduates stampee our set."

A MULATTO WAIF.

Abandoned by its Parents and Found With a Capital Hotel Silver Spoon.

If the saying born with a silver spoon is as good "in the hand" as "in the mouth," then the mulatto boy baby found at the old Mason & Ford building on Clinton street, Sunday night at nine o'clock, had he lived, need not have grieved over his helplessness and abandoned state.

When picked up by Mr. Harow, foreman of the L. & N. railroad work, who was attracted by the pitiful cries to the spot where the heartless mother or father had placed the infant, it had on a white skirt much too long for it, from the folds of which dropped a silver spoon with the words "Capital Hotel" engraved on the handle. The waif was a fine, healthy boy, weighing eight pounds, and from its appearance was believed to be no more than a day or two old. It was confided to Maria Handy, colored, and died on Tuesday.

Who its parents are has been conjectured but not yet confirmed, and in all likelihood it had not died and could have grown to man's estate and realized the prosperity that the silver spoon symbolized for him, the

intervening years would never have recorded the aching void in the lives of his unworthy parents.

The City Council.

There was a called meeting of the city council Monday night at which the City Clerk was directed to turn the tax books over to the City Treasurer, A. H. McClure, who was authorized to offer a rebate of four per cent. on all tax bills paid at once.

Property owners on Wilkinson street were ordered to have pavements constructed where there are none laid at present, and also the property owners on Second street, on the South Side were notified likewise.

The Water Company was directed to add 400 feet of Mains on Wilkinson street to the 1,200 feet already laid, and the council then adjourned.

Strong Witnesses.

Among the thousands of testimonials of cures by Dr. Miles' New Heart Cure, is that of Nathan Allison, a well-known citizen of Glen Rock, Pa., who for years had shortness of breath, sleeplessness, pain in left side, shoulders, smothering spells, etc.; one bottle of Dr. Miles' New Heart Cure and one box of Nerve and Liver Pills, cured him. Peter Jaquet, Salem, N. J., is another witness, who twenty years suffered with Heart Disease, was pronounced incurable by physicians, death stared him in the face, could not lie down for fear of smothering to death. Immediately after using the New Cure he felt better and could lie down and sleep all night, and is now a well man. The New Cure is solid, and a free book, by J. W. Gayle.

The 9th of June is Miss Jennie Cassiday's birthday, and the board of managers of the Infirmary ask for contributions (however small) to be sent on that day to the Infirmary, 1912 Sixth street, Louisville, Ky.

The Colored People.

Mr. Alex. Thomas is very sick this week.

Mr. Bowman Adams and wife returned from Louisville Monday, after spending Sunday with friends.

The Normal School commencement will take place on the eighth of June.

An excursion will leave this city to-morrow for Midway. Mr. John Rosby will be in charge and he has the reputation of keeping good order on his trains.

Rev. B. A. Faris is expected with his bride in a few days.

There is to be a big excursion to this city from Louisville Sunday next.

The remains of Mr. John Allen were laid to rest Sunday with fitting ceremony. The funeral sermon was preached by Rev. James Turner, of the St. John A. M. E. Church, assisted by Rev. M. Madison. The Patriarchy and Capital City and Industrial Legion Lodges of Odd Fellows attended and interred the remains with the honors of the order.

The Literary Society was largely attended Friday night of last week. A very complete programme was nicely rendered.

The young Odd Fellows ask you to come out Tuesday night. If you want to help the young men be sure to attend, for they are always ready to help others.

Sunday evening there will be a mass-meeting at the church to complete the arrangements for dedication day.

Mr. Armor Blackburn and wife have a bouncing baby boy.

Next Tuesday night, the 30th of this month, Industrial Legion Lodge, No. 3102, G. U. O. of O. F., will give a grand banquet at Haly's hall. They extend an invitation to the public and all secret orders to come out, as they will have refreshments of all kinds and good music for those who like dancing. Patriarchy No. 41, G. U. O. of O. F., and Douglas

Camp, Knights of Friendship, have been requested to give one of their attractive exhibition drills. So after the decoration of the soldier's graves do not fail to be out and help the young Odd Fellows and they will return the compliment.

Mr. John Coleman has accepted a place behind the bar at the Star.

The city school will close with a picnic about the 16th of June.

Every colored man that can spare his horse and vehicle on the 30th, decoration day, should have it in the line of march. Help swell the number, and after the decoration, attend the banquet at Haly's hall at night. Don't fail to come and bring your friends and have a good time.

The getting it down is bad enough, with the ordinary pill. But having it down is worse. And, after all the disturbance there's only a little temporary good.

From beginning to end, Dr. Pierce's Peppermint Cure is better. They're the smallest and easiest to take—tiny, sugar-coated granules that any child is ready for. Then they do their work so easily and so naturally that it lasts. They absolutely and permanently cure constipation, indigestion, bilious attacks, sick and bilious headaches and all derangements of the liver, stomach and bowels. They're guaranteed to give satisfaction, or your money is returned.

The MAKERS of Dr. Sage's Catarrh Remedy say: "If we can't cure your Catarrh, no matter what your case is, we'll pay you \$500 in cash." Now you can see what is said of other remedies, and decide which is most likely to cure you. Costs only 50 cents.

POSTPONED.

The Rain and Bad Roads Prevent the Bicycle Relay Race.

A telegram yesterday to Mr. Ed. O. Leigh, Assistant Secretary of State, announced that because of the rain and the impassable condition of the roads it was necessary to postpone the bicycle relay ride from Springfield, Ill., to this city.

It is not known now when it will take place, but probably in the early part of next month. The wheelmen of the State, as well as Illinois and other States, have been greatly interested in the test of speed and the postponement of the run, which was to have been made yesterday and today, will be a severe disappointment.

Gov. Brown, who was to be the recipient of the message from Gov. Altgeld, of Illinois, had made arrangements to receive Mr. Thomas Jeffries and Mr. Will. A. Lewis, who were to carry the message on the last relay from Peytona to this city, and had extended a cordial invitation to the local wheelmen to be present at the Executive Mansion at 7 o'clock this evening and partake of a light lunch.

The delay, it is thought, will have the effect of increasing the interest in the ride, and when the round up is made in this city the Governor and citizens will not fail to accord a proper reception to the bearers of the message.

"Educators are certainly the greatest benefactors of the race, and after reading Dr. Franklin Miles' popular works, we cannot help declaring him to be among the most entertaining and educating of authors."—New York Daily. WORLD'S FAIR NOTES.

A Few Pointers About Chicago.

As a great many readers of the ROUNDABOUT will make their first trip to Chicago during the World's Fair, a few pointers regarding the geography of the city will be appreciated. In the first place fix firmly in your mind that Lake Michigan forms the eastern boundary of the entire city, and if you stand facing the lake with both arms outstretched the left hand will point to the north and the right hand will point straight down the tracks of the Big Four route to the World's Fair buildings, situated at the southern end of the city. Paste this in your hat and you have the key to the entire situation. Coming into Chicago on trains of the Big Four route, which is the only railroad having an entrance on the south side along the lake front, where all the hotels and boarding houses are located, you will find yourself passing practically through the exposition grounds and a magnificent panoramic view of the fair is obtained.

At the World's Fair station of the Big Four route, if you step off on the right side, you are at the entrance gate to the exposition and can begin "doing" the Fair at once; if you step off on the left side, you will find yourself in the finest residential portion of Chicago, and right in the midst of the World's Fair hotel and boarding house district. The chances are ten to one that you will be within a few minutes' walk of the very place you have selected for your headquarters. If you prefer to go down town, ten minutes' ride will bring you to the new Twelfth Street station, in the heart of the city. Now bear in mind the manifest advantage of entering Chicago on the Big Four route. In the first place you avoid entirely the bother and trouble of a tedious transfer across the city, which is necessary via all other lines, being landed directly at the exposition grounds, an advantage offered by no other line; and in the second place you can so fix the geography of the city in your mind that you will at once become as familiar with Chicago as you are with your own town.

Another point in favor of the Big Four route is found in the fact that if you enter Cincinnati on the Queen & Crescent route, Louisville & Nashville R. R., Kentucky Central Ry., Chesapeake & Ohio Ry., or Baltimore & Ohio S. W. R. R., connection is made in Union depot, avoiding the disagreeable transfer necessary via all other lines. For full particulars address D. B. MARTIN, General Passenger agent, Cincinnati.

THE FEEBLE-MINDED INSTITUTE.

The House Passed the Bill to
Convert It into an Asylum for
Female Lunatics

The House on Wednesday, by a vote of 44 yeas to 23 nays, passed the bill to convert the Feeble-minded Institute in this city into an asylum for female lunatics. It is said that the Senate will probably oppose the measure.

If there be any good reason to change the character of this praiseworthy institution of the State, why not adopt the recommendation of the Superintendent, Dr. J. Q. A. Stewart, and make it a home for all the pauper idiots, now numbering about 1,500, for whose provision the State pays over \$80,000 per annum? Those States which have such homes in operation claim that it is the solution of the vexatious question of reducing the maintenance to the minimum and most humanely caring for this unfortunate class of persons, who, under the present system, are too often the victims of their agents' avarice and cruelty.

LOUISVILLE TOBACCO MARKET.

FURNISHED BY GLOVER & DURRETT,
LOUISVILLE TOBACCO WAREHOUSE.

Sales on our market for the week just closed amount to 2,281 hds., with receipts for the same period of 2,385 hds. Sales on our market since January 1st amount to 69,950 hds. Sales of the crop of 1892 on our market to this date amount to 70,991 hds.

The offerings this week again show a large per cent. of common burley, prices for such being fairly well maintained at the decline reported last week. The market during the week has developed no new features. The progress which has been made in setting the new crop is of no consequence up to this time.

The following quotations fairly represent our market for new burley tobacco (1892 crop):

Trash (dark) or damaged tobacco	\$3.50	\$4.25
Common Colory trash	4.25	6.00
Medium to good colory trash	6.00	8.00
Common lugs not colory	4.50	6.00
Common Colory lugs	6.00	8.00
Medium to good colory lugs	8.00	10.00
Common to medium leaf	8.50	13.00
Medium to good leaf	13.00	15.00
Good to fine leaf	15.00	20.00
Select or wrapery tobacco	20.00	25.50

There is nothing I have ever used for muscular rheumatism that gives me as much relief as Chamberlain's Pain Balm does. I have been using it for about two years—four bottles in all—as occasion required, and always keep a bottle of it in my home. I believe I know a good thing when I get hold of it, and Pain Balm is the best liniment I have ever met with. W. B. Denny, dairyman, New Lexington, Ohio. 50 cent bottles for sale by J. W. Gayle. 35-lm.

World's Fair and American Railways.

THE QUEEN & CRESCENT ROUTE widely know as the road running the "Finest Trains in the South," is in the field to carry everybody from the South to the World's Fair, at Chicago. No part of the Southern country is left unacared for by this great railway and its connections. The Through Car System is an admirable exposition of the wonderful capabilities of American railroading. From New Orleans through sleeping cars run daily, morning and evening, carrying its passengers via Cincinnati or Louisville, as they may select.

From Shreveport, Vicksburg and Jackson another through sleeping car line comes to join and become a part of the magnificent vestibuled through trains, which passing through Birmingham and the famous Valley of Alabama, is joined at Chattanooga by the train from Jacksonville, Florida, Brunswick and Atlanta, Georgia, over the E. T. V. & Ga. Ry., and proceeds north over the beautiful Cincinnati Southern, through the grandest natural scenery and most attractive historical country in the world to Oakdale, where another magnificent Pullman car is relieved, coming from the Richmond and Danville system from Charleston, S. C., through Columbia, S. C., the beautiful French Broad country, and Asheville, N. C., and Knoxville, Tennessee.

The time to Chicago is made so as to afford the most convenient hours for departures from the principal cities, and arrivals in Chicago. Passengers can purchase tickets good over one line north of the river, and returning via another if they desire a variable route without extra charge. Or they can go via Cincinnati, returning via Louisville or vice versa.

Round trip tickets on sale at reduced rates. Agents of Chicago line will, on request assist in looking up rooms or accommodation for visitors to the Fair.

Everything that an almost perfect system can devise to deserve the praise and patronage of the traveling public has been provided. Any of the agents of the company named below will cheerfully give all possible information and assistance. R. H. Garrett, New Orleans, La.; I. Hardy, Vicksburg, Miss.; J. R.
